The New MoogS3.com Offers Users an Improved Experience

Northbrook, IL. (Aug. 24, 2021) – Moog Inc. (NYSE: MOG.A and MOG.B) Moog Sensor and Surveillance Systems (S3) is excited to announce that our [MoogS3.com](https://www.moogs3.com) website has been redesigned. The modernized site is now easier and clearer for our customers to find information and allows future functionality and flexibility to be implemented.

MoogS3.com Homepage

With the user experience in mind, our newly designed site has many rich features which make it easier to learn about Moog S3's products and services, along with a new mobile experience for the user. The new homepage of Moog S3 includes navigation to products, markets, resources, technical support, and a *contact us* page that offers multiple options to reach our personnel. It also includes quick links to our featured products and literature. As part of improving the user experience, we have added contact us buttons on every product page as well as links to related products. Additionally, manuals, software, and other detailed information is clearly arranged by product in the revamped resource library.

"We're thrilled to announce these important website improvements. This effort supports our goal to enhance our customers' experience now and into the future," said Anup Dulat, Moog S3 General Manager.

About Moog Inc.
